Figure 1 consists of four histograms arranged in a 2x2 grid. The top row shows the distribution of the number of children per woman for the 1970s, and the bottom row shows the distribution for the 1980s. The left column shows the distribution for the 1970s, and the right column shows the distribution for the 1980s. The x-axis represents the number of children (0 to 10), and the y-axis represents the percentage of women (0 to 100). The distributions are unimodal and slightly right-skewed, with a peak around 2-3 children.
